

SQUEAKY CLEAN

EDUCATIONAL OUTREACH

A performance by SQUEAKY CLEAN can be a valuable educational experience, in addition to being a hugely entertaining exposure to live music performance.

Suzanne and Glenn have been part of the Arts-in-Education community for the past 25 years and were among the first to bring rock and roll music into local schools. Their programs were developed in close  cooperation with local BOCES programs (Board of Cooperative Educational Services).

Each of their themed programs addresses New York State Learning Standards for the Arts, Math/Science/Technology, Social Studies and English Language Arts.

Full study guides for each program are downloadable from their website:

gmfmusic.com

These study guides include **Educational Objectives and Program Methods, Suggested Pre- and Post-Activities** and a list of **Resource Materials**.
